# High-Performance Pick Station

Ergonomic, effective, and productive preparation of multiple orders at once

# Agility and efficiency

Our high-performance pick station enables operators to prepare up to six orders at once without the need to travel.

**GOODS-TO-PERSON METHOD:**  
the totes containing the products are brought to operators automatically, avoiding trips around the facility.

**MAXIMUM ACCURACY:**  
the Easy WMS warehouse management system guides operators in preparing six orders at a time.

**ELIMINATION OF ERRORS:**  
thanks to the pick/put-to-light instructions, operators fill orders without the risk of making mistakes.

## Features

Throughput: **up to 1,000 picks/hour**

Orders filled: **6 orders simultaneously**

Maximum weight: **110 lb. per order**

Speed: **131'/min**

Operating temperatures: **32 °F to 104 °F**

**ERGONOMIC DESIGN:**  
operators can adjust the platform to a comfortable height.

**PROTECTION AND SAFETY:**  
safeguards have been built in for both operators and goods.
